Volume 53 Number 2

The Physics Teacher

AAPT membership connects you with a world of physics educators working to enlighten society through excellence in K-20 teaching.

Join at aapt.org

A publication of the American Association of Physics Teachers

Your AAPT Membership includes access to:

- Online, peer reviewed professional journals dedicated to physics instruction: *American Journal of Physics* and *The Physics Teacher*, with the option to purchase print issues of both titles .
- *Physics Today*, a magazine providing information about current research and findings in physics.
- Special Interest Group discussion lists (e.g., advanced labs, high school, two-year college, apparatus, physics education research, science for the public).
- eMentoring, connecting high school physics educators who desire additional guidance with experienced high school physics educators.
- National meetings provide a forum for physics teachers at all levels to interact and improve the teaching of physics. Members enjoy reduced fees.
- Topical conferences and workshops, such as the New Physics and Astronomy Faculty Workshop, the Introductory Physics in the Life Sciences Workshop, Advanced Labs, and the Department Chairs Conference, offering instruction to improve your success as a physics teacher.
- AAPT's monthly e-newsletter, the *eNNOUNCER*, bringing the latest news directly to your email box.
- National and international networking.
- And much more...
