2023 PhysicsBowl Results: Regions 00 – 14

Dear Physics Teachers,

Enclosed are lists of
- the overall top 10 students in each division
- the overall top 5 schools in each division
- the top two students in each division by region
- the top 4 schools in each region by division

Unfortunately, we received some answer sheets which did not properly fill in the required information which resulted in the student's score being disqualified for consideration of either individual top scores or for the team score. This is an unfortunate necessity because of the amount of data that must be analyzed. We cannot go and check exams individually to look for errors, so it is up to the proctors and instructors to be sure students fill in their information correctly.

Instructors will receive an email with instructions for accessing their individual student scores. Please realize that we were able to retrieve some scores that were disqualified for improperly recording the required information, but this was done after-the-fact. If the information was not encoded correctly, the student was immediately disqualified even though we may be able to link that student to your code now. Some students provided no codes, the wrong regions, no name, just a last name, etc. There are a lot of records and we cannot go back and fill in missing information. While it is unfortunate to disqualify anyone, these are the rules of the contest. If you are missing a student's score… please email programs@aapt.org with student information (teacher codes, name, etc.) and we can try to find the information.

We will, as always, be trying to improve the contest and we look forward to your participation in 2024.

Sincerely,

Jon Anderson
