

2014 PhysicsBowl Results

Dear Physics Teachers,

Thank you for having your students participate in this year's AAPT PHYSICSBOWL contest.

This year there were more than 4500 students participating from 280+ schools across the United States, Canada, China and Spain!

Enclosed are lists of

- the overall top 10 students in each division
- the overall top 5 schools in each division
- the first and second place students in each division by region.
- the top 4 schools in each region by division
- a list of the top 20 student scores in each division that did not win a prize

Unfortunately, we received many answer sheets which did not properly fill in the required information which resulted in the student's score being disqualified for consideration of either individual prizes or for the team score. This is an unfortunate necessity because of the amount of data that must be analyzed. Also, some instructors appear not to have followed the instructions resulting in students being disqualified. We cannot go and check exams individually to look for errors, so it is up to the proctors and instructors to be sure to follow the instructions.

This year, we are able to award the following prizes:

- To the top overall school in each Division
 - \$100 gift certificate awarded from Pasco Scientific
- To the top 5 overall schools in each Division:
 - \$100 gift certificate awarded from CPO Science
 - "PhysicsBowl Champion" T-shirts awarded to the five top students from each school from AAPT.
- To the top two scoring schools in each region/division:
 - \$50 gift certificate awarded from Vernier Software & Technology
 - "PhysicsBowl Champion" T-shirts awarded to the five top students from the *1st* place school in each region from AAPT.
 - A rattleback from Arbor Scientific.

All student winners will receive a copy of "Used Math" from AAPT. In addition, student winners receive

- To the top 10 overall students in each Division:
 - Div. 02 only: A copy of "Electricity and Magnetism" from Cambridge University Press.
 - Div. 01 only: A copy of "Introduction to Classical Mechanics" from Cambridge University Press.
 - Both Divisions: A book from either Cambridge University Press, Pearson, Princeton University Press, or John Wiley & Sons
- To the 1st place student in each Division by Region
 - A copy of "Mad about Modern Physics" from John Wiley & Sons
- To the 2nd place student in each Division by Region
 - A Mysterious Glowing Ball from Educational Innovations, Inc.
 - TI-30 XS MultiView Scientific Calculator awarded from Texas Instruments.

Finally, additional prizes are awarded to the 2 highest scoring schools in each Division that did NOT finish in the top 2 of their region. This also is true for students in both divisions.

A copy of this year's test along with solutions, as well as individual and team winners can be found at the following web site: <http://www.delta.edu/michaelfaleski/PhysicsBowl>

AAPT PHYSICSBOWL 2014

We had the good fortune of having many wonderful sponsors again this year. We hope to continue our relationship with these companies in the future. One way to ensure that this happens is for teachers to send thank you's to the companies when ordering materials and to use the gift certificates provided. We hope that you use your certificates to help your physics program in the coming years.

Instructors can obtain the scores of their students from the AAPT website and that link will be provided to you in an email from the national office. Please realize that we were able to retrieve some scores that were disqualified for improperly recording the required information, but this was done after-the-fact. If the information was not encoded correctly, the student was immediately disqualified from winning prizes even though we may be able to link that student to your code now. Some students provided no codes, the wrong regions, no name, just a last name, etc. There are a lot of records and we cannot go back and fill in missing information. While it is unfortunate to disqualify anyone, these are the rules of the contest. Sadly, some very high scores were disqualified. If you still are missing a student's score... please email jlane@aapt.org with student information (CEEB, teacher codes, etc.) and we can try to find the information.

In addition, emails often are received about the competitive balance in some regions. That is, there are questions about whether some schools should really be competing in a regular region or Region 01. It truly is a very difficult thing for the Board to rule on because names of schools can be deceiving with regard to identifying if it is a magnet school, charter school, specialized school, school of science and math... we must rely on instructors to use their best judgment. This is a very difficult task for those of us not actually at the schools in question, but a good rule of thumb... if your school has "math, science" and/or "technology" in its name, it should probably be in region 01! 😊

Based on recent trends, the PhysicsBowl Advisory Board will again be looking at the competitive balance in regions. There could be some very exciting additions this coming year as well which would cause more changes. Change is good, especially in that it is change related to growth!! 2014 was a particularly difficult year for some schools with regard to competing because of the particularly harsh winter throughout much of the country. We hope that many of these schools will return for the 2015 contest!!

The statistics from this year's contest are shown below.

Division 01 had an average score of 17.5. Statistically, the easiest question was **#6** (83 % correct) while the most difficult question was **#39** (11 % correct).

Division 02 statistics were similar to last year's contest with an average of 15.7. Statistically, the easiest question was **#13** (77 % correct) while the most difficult question was **#46** (6 % correct)

The production of a challenging contest of only 40 questions that has a small percentage of very high scores while still not being overly difficult to discourage the majority of students is an enormous task. We will continue to write the best contest that we can and hope to make it even better next year!

Statistics for exam

Average Score for Division 01 = **17.5** with a standard deviation of 5.9

Average Score for Division 02 = **15.7** with a standard deviation of 5.4

Figure 1. Division 01... # students vs. Score

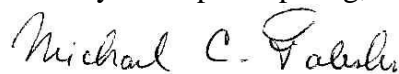

Figure 2. Division 02.... # students vs. Score

We look forward to having you participate in next year's contest... and please let your colleagues at schools near you know about the contest! We are considering how to expand the contest to include more schools and students next year as well as making some more changes with the contest to improve it. Work will continue on the PhysicsBowl website (please keep checking it) as we look to make some possibly more substantial changes in the near future.

Thank you for participating,

Michael C. Faleski
 PhysicsBowl Academic Coordinator
 Physics Department – Delta College
 University Center, MI 48710

AAPT PHYSICS BOWL 2014

TOP TEN OVERALL DIVISION 01 SCORES

<u>#</u>	<u>Reg</u>	<u>Score</u>	<u>Student</u>	<u>School</u>	<u>City</u>	<u>State</u>
1	13	40	Samineni, Aneesh V	The King's Academy	Sunnyvale	CA
2	03	39	Singhal, Karan	Brown Academy	Great Neck	NY
3	13	38	Lu, Kelvin	Mission San Jose HS	Fremont	CA
4	03	36*	Liu, Stephen	Bayview Secondary School	Richmond Hill	ON
5	14	36*	Liang, Junhao	Guangdong Country Garden School	Foshan	China
6	08	36	Yim, Justin H	Vernon Hills HS	Vernon Hills	IL
7	01	35*	Kim, Leon M	Thomas Jefferson HSST	Alexandria	VA
8	01	35*	Dempsey, Ross	Thomas Jefferson HSST	Alexandria	VA
9	14	35*	Huang, Taowen	China-UK College	Shenzhen	China
10	07	35	Yap, Brendan S	Carmel HS	Carmel	IN

TOP TEN OVERALL DIVISION 02 SCORES

<u>#</u>	<u>Reg</u>	<u>Score</u>	<u>Student</u>	<u>School</u>	<u>City</u>	<u>State</u>
1	07	37	Fei, Kevin C	Carmel HS	Carmel	IN
2	01	34*	Winer, Michael H	Montgomery Blair HS	Silver Spring	MD
3	04	34*	Shi, Jason	West Windsor-Plainsboro S	Princeton Junction	NJ
4	01	34*	Bourzutschky, Alexander	Montgomery Blair HS	Silver Spring	MD
5	13	34*	Huang, Matthew Z	The Harker School	San Jose	CA
6	13	34*	Pan, Christina A	Monta Vista HS	Cupertino	CA
7	13	34*	Sridhar, Rahul	The Harker School	San Jose	CA
8	03	34*	Wu, Henry	Univ of Toronto Schools	Toronto	ON
9	06	34	Park, Edward S	Walton HS	Marietta	GA
10	14	33*	Xia, Shangzhou	Shenzhen Middle School	Shenzhen	China

Note: Ranking for tied scores is based on the tiebreaker rules... scoring from the end of the test to the front. There were multiple other scores of 33 both in Divisions 01 that did not make the top 10 overall because of the tiebreaks.

Note: These students are recognized as “overall” winners and are removed from the regional winners pool.
